For Immediate Release

Date: 07/07/2014
Authorized by: Lt. Bianchi
Contact: Shift Supervisor.

On Monday July 7th at around 1150 A.M. the Hudson Police and Fire Departments responded to the intersection of Lowell Road and Wason Road for a motor vehicle collision between a car and a bicyclist. Upon arrival the bicyclist was found on the eastbound lane of Wason Road suffering from serious head trauma. The car involved was parked at the scene and the driver and passers-by were rendering aid to the injured male bicyclist identified as:

James Landry
47 years old
Of Nashua NH

The vehicle was driven by:

Alisha McCoy
30 years old
Of Nashua NH

LANDRY was taken by The Hudson Fire Ambulance to The Southern New Hampshire Medical Center in Nashua and later transferred to Massachusetts General Hospital. LANDRY was last listed in critical condition.

The investigation by members of The Hudson Police Crash Investigation and Reconstruction Team found that McCoy was traveling east from Flagstone Drive on a green light going onto Wason Road. As she reached the beginning of Wason Road Landry collided with the left front of her vehicle. He was thrown from the bike and struck his head on the pavement. He was not wearing a helmet.

At the time Landry was riding against traffic and ran a red light. McCoy had a green light and the right of way. Speed was not a factor on the part of McCoy. The bicycle that Landry was riding was an electric assisted bicycle. His speed could not be determined due to the type of collision that occurred with the car. Wason Road traffic was affected for just over one hour while police conducted the investigation of the scene. The Hudson Police would like to remind bicyclists to always wear a helmet and always obey the rules of the road. Ride with traffic not against it and stop at traffic lights and stop signs.
